

PC JIMS IMAGING is a **paperless digital document management solution** for compact storage and easy retrieval of documents. It's part of our integrated suite of applications for the justice system.

- Also **stores digital audio & video** for easy access
- Store by case number or other ID, as needed
- **NEW! In-house e-filing** -- route documents to judges for review and e-signature
- Use **export** tool to save on storage space and microfilm costs, while retaining availability after destruction
- **Reduce costs by sharing the system** -- secure & independent digital storage for State's Attorney, Public Defender, Circuit Clerk and Probation offices

Digital Access is safer

- Never check out a file or lose a document again
- Set up security measures controlling which users can scan, modify and delete files
- **Security is linked to JIMS** for single-point access control to juvenile, impounded & other sensitive cases
- Secure a document, litigant, or entire case to restrict access to authorized users only

PC JIMS IMAGING is a whole lot more than just a digital copy of your documents.

- Circuit Clerks**
- Import documents directly from the filing
 - Easily route documents to judges for review/signature, (e.g., e-filed proposed orders)
 - Filing fees can be paid online, making less cash to receipt and handle
 - Reduce attorney traffic at your counter

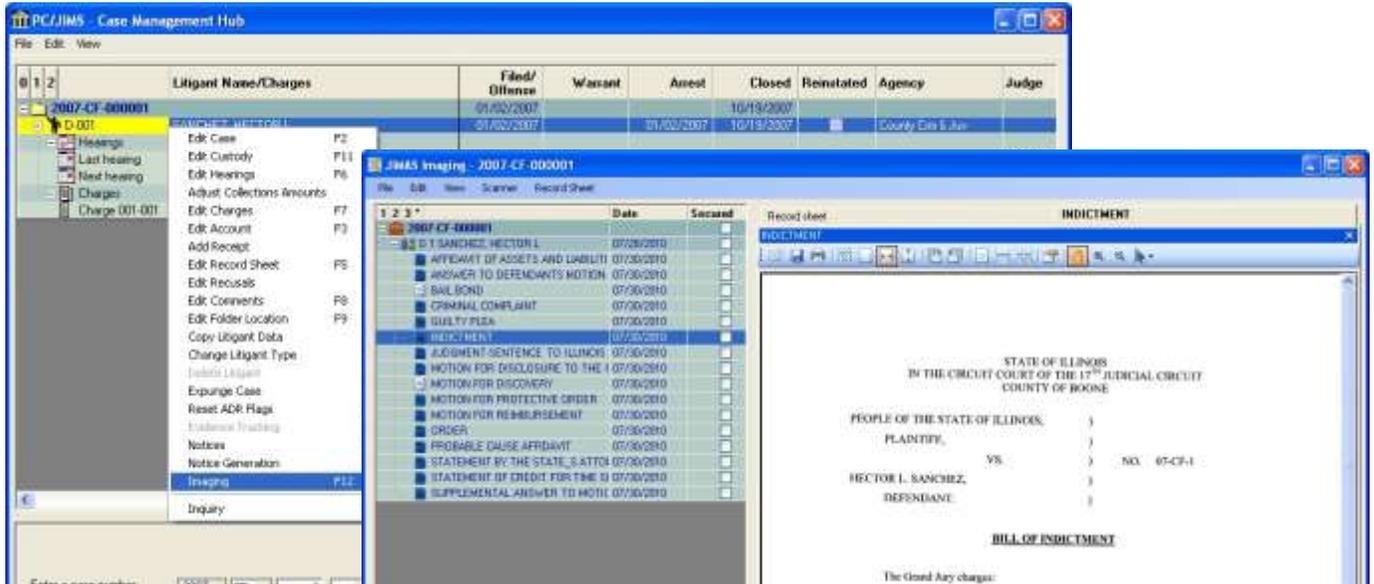

- Attorneys**
- File 24/7, without leaving the office
 - Instantly know when court takes action on a filing
 - Electronic service on opposing counsel
 - Fast access to documents filed by court

PC JIMS IMAGING & E-APPEAL

- Judges
- Quick access to filings
 - In-house e-filing/e-signature
 - Fast access to filed and court-generated documents

PC JIMS COURTS* & BAILIFF*

- PC JIMS BAILIFF check-ins are indicated in the PC JIMS hub.
- PC JIMS access to the complete digital case file in PC JIMS IMAGING lets you **process each day's case load right in court** without ever having to search for a case or touch a paper file.

- When configured to do so, this takes your judge directly to the pleading under consideration that day.
 - For judges who don't want to run the process themselves, some of our courts connect a second monitor to the Clerk's courtroom PC.
- **NEW!** Route PC JIMS COURTS Inbox **documents to judges for review and e-signature.**

PC JIMS IMAGING E-APPEAL*

- Create an entire e-appeal with just a few clicks.
- Automatically generate all of the PDF file(s) into the format required by the appeals court, including the Certification of Record, indexes for the Common Law Record, Report of Proceedings and Exhibit List.

PC JIMS PROBATION*

- Access all authorized Court & Probation case-associated images.
- Export digital documents per **ICOTS standards** for Interstate & Intrastate Compact compliance.

GAL IMAGING ONLINE BACKUP SERVICE*

- Restore images lost to disaster or malice with this added layer of data protection.
- **Online access to electronic filings and scanned documents**, from both counsel and judges. Available to judges and attorneys of record.

*Separate license required.
